

INDIAN WORKFORCE FOR EUROPEAN PROJECTS

**Educated professionals with experience
from European sites**

TACKLING THE LABOR SHORTAGE.

Across the heavy and technical industry, employers are struggling to attract and retain employees for projects, which limits the companies production.

An increasingly popular solution is talent sourcing from emerging economies like India, with a fast growing population of educated and skilled talent.

Thomas, Shridevi, Saranya, Tejaswini, John and Pavan at our Bangalore office

Pavan and Jaisimha with PS founders, John and Thomas

PLANT SUPERVISION INDIA PVT.

In 2011 Plant Supervision established its Bangalore based Indian branch and has since then supplied more than 400 professionals to more than 80 countries worldwide.

COMPANIES WE HAVE ASSISTED.

Above is some of the companies we have assisted with our Indian workforce, delivering professional and cost-effective solutions.

EDUCATED PROFESSIONALS.

Our Indian Workforce consists solely of educated professionals with experience from other European projects.

Our personnel possess excellent English skills both verbally and in writing.

They're also accustomed to working on sites with predominantly European personnel and understands the western culture, Health & Safety codes and general workflow.
